

2.2 Describe your Pelican Push Craft: i.e. Height, Materials, Weight and Special Features etc.

2.3 Draw/attach a sketch of your Birdman Craft:

--

2.4 List your crew Members and their Roles here:

2.5 Pay entry fee of \$25.00. All proceeds in 2011 are going to Childhood Cancer Support.

2.6 All contestants will be competing for the greatest distance traveled and the best costume. The judge's decision will be final and no correspondence will be entered into.

3.0 Important dates:

All successful applicants must be available for a full safety briefing prior to the event, to be held at 4pm on **Friday 30th**. **Please be advised that due to programming being sorted out, start times are not set yet.**

4.0 Acceptance:

I have read and agree to the attached Indemnity & Release Form if I am successful for selection of the river 2 reef 2011 Pelican Push.

I have read and agree to the attached river 2 reef 2011 Pelican Push Design Rules and understand that failure to abide by these rules may lead to my disqualification of the competition.

I accept that all material and images supplied may be used for all River to Reef marketing and promotions.

There are limited places in the river 2 reef 2011 Pelican Push and selection will be on a first come first served basis. However, completion of this form does not guarantee entry into the event as strict attention is paid to the information supplied in this form. The final selection of participants is at the discretion of Childhood Cancer Support and river 2 reef Management.

river 2 reef Festival Pelican Push

INDEMNITY AND RELEASE FORM

(Print Full name) ("Participant")
OF
(Print Full Residential Address),

In consideration of being permitted by the Childhood Cancer Support (CCS) to participate in the river 2 reef 2011 Pelican Push ("The Pelican Push"), I fully understand and agree:

1. That a reference to the CCS includes its current and former members, employees, agents, administrators, subcontractors and successors and each of them, and all persons associated with the conduct of the Pelican Push, including current and former sponsors, producers, representatives and successors and each of them.
2. That a reference to participation, extends to all acts or things done at the Pelican Push site before, on or after the Pelican Push day on Saturday 1st October 2011 and associated with the Pelican Push.

Compliance with the Rules:

3. To abide by the provision of any act, regulation or by-law, which may be related to my participation in the Pelican Push.
4. To abide by the existing rules of the Pelican Push,
 - 4.1 including the attached Design Rules which I declare that I have read and understood
 - 4.2 and any other rules of the Pelican Push, which may from time to time be made by CCS.
5. To abide by any directions given by the CCS in connection with my participation in the Pelican Push.
6. That the decision of the judge or judges of the Pelican Push, as appointed by CCS, shall be final and conclusive whether in relation to the awarding of any prize or the disqualification of any participant, including myself, or otherwise in relation to any matter relating to the Pelican Push.
7. That I have no right of appeal of any decision of the judge or judges of the Pelican Push, to any court, tribunal or any other body.

Voluntary Assumption of Risk:

8. By participating in the Pelican Push I am voluntarily exposing myself to risk and harm.

A reference to risk includes, but is not limited to:

- 8.1 a significant risk
- 8.2 an obvious risk
- 8.3 an inherent risk and
- 8.4 any other risk

9. A reference to harm means harm of any kind and includes, but is not limited to,

- 9.1 injury or death
- 9.2 disease
- 9.3 damage to property and
- 9.4 economic loss

10. That there is a significant risk of serious harm in participating in the Pelican Push, which is foreseeable and probable.

11. That there is an obvious risk of harm and certain obvious risks and dangers associated with participating in the Pelican Push. Obvious risks include, but are not limited to:

11.1 Loss or damage to personal property.

11.2 Injury or fatality due to the weather conditions, submerged objects below the surface of the water, inadequate water depth, water currents, slipping, falling, collision, contact with other participants or objects or animals in the water or surrounding environment.

11.3 Health risks associated with contact with the water and surrounding environment.

11.4 Physical exertion and any consequences arising from physical exertion.

11.5 Any other risk that is associated with participation in the Pelican Push, whether I think it likely to occur or not.

12. That there are inherent risks associated with my participation in the Pelican Push and should those risks materialise CCS are in no way liable for any harm resulting to me. An inherent risk is a risk of something occurring that cannot be avoided by the exercise of reasonable care by CCS.

13. That, as a Participant, I have the burden and responsibility of taking precautions to avoid and/or limit all risks and the risk of any harm, and that CCS are in no way liable for any harm suffered by me due to my participation in the Pelican Push.

14. That CCS has warned me of the risks associated with my participation in the Pelican Push.

Indemnity and Release

15. That in consideration of CCS acceptance of my entry in the Pelican Push, I hereby covenant:

15.1 Not to sue CCS.

15.2 To forever release and discharge CCS of all liabilities of every kind or nature whatsoever, foreseen or unforeseen, obvious, inherent, known or unknown, arising from any harm experienced, whether obvious, inherent or any other, and from any and all causes of action, suits, claims, demands and costs of whatever nature and however arising which I may have against CCS, and which is or are in any way directly or indirectly connected with or which arise out of the whole or any part of my participation in the Pelican Push.

15.3 To indemnify CCS from and against any and all actions, suits, claims, demands and costs of whatever kind or nature whatsoever, foreseen or unforeseen, obvious, inherent, known or unknown, and however arising which may be brought or made or claimed against CCS, and which is or are in any way directly or indirectly connected with or which arise out of the whole or any part of my participation in the Pelican Push and any negligent acts, errors or omission on my behalf.

15.4 That if I suffer harm, CCS may at my cost arrange medical treatment and emergency evacuation service, as deemed essential for my safety.

General

16. That in entering into this Agreement,

16.1 I am not relying on any oral, written or visual representations or statements made by CCS or any other inducement or coercion to participate in the Pelican Push. That this Agreement is governed in all respects by and interpreted in accordance with, the law of Queensland.

17. And I declare that:

17.1 I am medically able, properly trained and physically capable of entering and competing in the Pelican Push.

17.2 I am over the age of 18 years.

17.3 I am able to swim at least 20 metres unassisted.

17.4 I agree to comply with the Design Rules attached to this Agreement.

PELICAN PUSH DESIGN RULES

Participants failing to comply with Design Rules will be disqualified.

1. Entry, safety briefing and inspection

1.1 Entry

(a) All participants must complete and sign an official Entry Form and submit it to the river 2 reef Festival by **28 September 2011**. Entries received after that date will not be accepted. Places are limited and applications will be assessed on a first come, first served basis.

(b) All participants must be 18 years of age or above. Proof of age may be requested.

1.2 CCS reserves the right to refuse any entry for any reason, and without providing any reason.

1.3 Safety Briefing

(a) All participants must attend a pre Event Safety Briefing held on **Friday 30th September 2011 at 4pm at Blue Water Quays**.

(b) Attendance at the Event Safety Briefing is a condition of entry.

(c) Confirmation of time and location for the Event Safety Briefing will be contained in the letter of acceptance sent to participants once their Entry Forms have been processed.

1.4 Safety Inspection

(a) On the day of the Pelican Push a Safety Inspection will be held. So that the Pelican Push safety scrutineers can inspect:

- The flying device
- The participant
- The participant's clothing
- Conformity with the Design Rules generally

(b) Participants that are considered by the Council to be under the influence of alcohol or drugs prior to their attempt will be disqualified.

(c) All participants must be in the clothing they intend to wear for the Rally, during this inspection.

(d) If, in the opinion of the scrutineers, any entered flying device, participant or participant's clothing does not comply with any of points 1.1 to 2.11 inclusive, and the safety of the participant or any other person may be at risk, the participant will be disqualified from the Pelican Push.

(e) Scrutineers have absolute discretion and their decision is final.

2. Safety

2.1 Helmets, Buoyancy Vests, Footwear and Clothing

(a) All participants must wear an Australian Standard AS2063 approved bicycle or kayaking helmet. No motorcycle helmets may be used due to their greater weight and the dangers of water logging.

(b) All participants must supply and wear an Australian Standards PFD1 (Personal Flotation Device Number 1) approved buoyancy vest. No life jackets may be used due to the dangers of restricted movement or difficulties in exiting a submerged flying device.

- (c) All participants must wear footwear such as sneakers or runners, preferably with rubber soles, but not any footwear that when filled with water may increase the difficulty of treading water, for example gumboots or any excessively loose footwear.
- (d) Participants must not wear clothing that will restrict their ability to swim or their ability to exit the device. For example, the wearing of heavy coats or hoods would be inappropriate.

2.2 Injury and Catchpoints

- (a) There may be no sharp edges, protruding components or pinch points.
- (b) No nails, screws or objects that can cause injury should be used in constructing a device.
- (c) The design must anticipate structural failure of the flying device during flight or due to impact with water, and avoid using materials which when exposed will cause injury or create catch points.
- (d) Padding should be provided to cushion any impact a participant may have with any part of the flying device.
- (e) Designs must avoid:
 - (i) The use of a participant's arms as the main 'structural' members of wings longer or significantly larger than the arm; or
 - (ii) arms draped outside and over the edges of a box shaped pilot's cell, which may result in injury to the armpits.

2.3 Entry and Exit Points

There must be two clear entry or exit points for the participant in the flying device. These two entry or exit points must allow unobstructed full entry to, or full exit from the flying device within five seconds on dry ground. The design of these entry or exit points must anticipate the flying device coming to rest upside down.

2.4 Harnesses

Where any harness for a participant is provided on a flying device, the harness must feature a quick release device that may be fully activated or released by one hand within three seconds.

2.5 Construction, Materials and Flotation

- (a) No more than 50% of a flying device can be made from steel, structural timber, splintering materials or other heavy materials, or a combination of those materials.
- (b) Where any hollow structural section is incorporated into a flying device it must be fully sealed to prevent water entering into it.
- (c) Consideration should be taken to including buoyancy devices within the design.

2.6 Weather or Dangerous Conditions

If, in the opinion of the Council, high wind conditions or any other conditions exist that may expose participants or any other persons to significant safety risks, the Pelican Push may be postponed or cancelled without notice.

2.7 Amendment of Rules

The Council reserves the right to alter, cancel or abandon any or all aspects of the Pelican Push without notice and in its entire discretion.

3. Characteristics and weight of flying device

The flying device must adhere to the following requirements:

3.1 Length:

The flying device must not exceed a maximum length of three metres.

3.2 Wings and Wingspan:

The flying device must not exceed a maximum wingspan of eight metres. Wings may either be fixed, rotary, or flapping. For rotary or circular wings, the maximum allowable diameter is eight metres.

3.3 Height:

The flying device must not exceed a maximum height of three metres when on the ground.

3.4 Separate Launch Devices and Wheels:

The flying device must not use any launching devices that separate from it prior to or during flight, for example bicycles, rails, husky teams, cars or boats.

(a) The flying device must not, if attempting to qualify for any Prize for length of distance flown, rest on, nor rely for any launch assistance on wheels.

3.5 Lighter than Air and Lifting Devices:

The flying device must not be in any part lighter than air.

(a) Balloons, kites and parachutes are not allowed.

3.6 Stored Energy:

The flying device must not incorporate any stored energy devices, including, but not limited to, gas under pressure, springs, elastics or oxidising propellants.

3.7 Gears, Propellers and Motors:

(a) The flying device may incorporate gears, chains, pulleys or propellers only if these are powered by the physical efforts of the competitor alone.

(b) Motors and engines of any kind are not allowed.

3.8 Originality:

The flying device must not be composed of any more than 25% of any commercially available flying device.

3.9 Advertising:

Must be approved by river 2 reef Festival Management

(a) The flying device, pilot or support crew must not, if accepted as a free, individual entry, feature any commercial advertising.

(b) Acknowledgments of materials or services supplied or sponsored may be made, as long as these acknowledgments are no larger than 250mm x 250mm.

Sponsor acknowledgments of your craft must exclude companies in the soft drinks category, waters, ice creams, media or travel.

3.10 Weight:

The flying device should weigh no more than 40kg plus the body weight of the participant.

3.11 Pilot and Launch Assistance:

(a) The flying device must be for one pilot only. Only one attempt will be allowed.

(b) A flying device must rely on no more than three assistants and the pilot during launch and not greater than 40 kg in weight.

4. Launch platform

The launch platform:

4.1 Height: will be approximately 3 metres above the height of the water.

4.2 Size: will feature a level launching area six metres by 3 metres

4.3 Handrail: will be 1 metre in height

5. Flying distance

The definition of attained flying distance:

5.1 First Contact:

Will be established by the first contact point of a flying device or pilot with the water.

5.2 Pilot and Device Together:

Will be counted only where the pilot is in unbroken contact with the flying device.

5.3 Markers and Judges:

Will be measured from the point vertically below the launch platform and in a horizontal direction away from the platform.

5.4 Measurement:

(a) This distance will be defined by bands parallel to the leaping edge of the launch platform. Marker buoys or targets in the water, which may move due to the actions of wind, water currents or tides, will be taken to act as indicators only, and attained flying distance will be established solely by the judges appointed by CCS of the Pelican Push.

(b) No correspondence will be entered into.

6. Disclaimer

6.1 Childhood Cancer Support does not warrant that the Design Rules will reduce or eliminate the risks associated with participation in the Pelican Push or reduce or eliminate the possibility of harm that may occur to any participant.

6.2 The information provided in Section 3 of the Design Rules is intended as a guide and general information only. Childhood Cancer Support accepts no responsibility or liability for the correctness, accuracy or completeness of any of the information contained in the Design Rules.

6.3 Childhood Cancer Support do not accept responsibility for any loss or damage, however caused (including through negligence), which a participant may directly or indirectly suffer in connection with their participation in the Pelican Push, nor does the Childhood Cancer Support accept any responsibility for any such loss arising out of a participant's use of or reliance on information contained in the Design Rules.

Childhood Cancer Support thanks you for your support. Let's have an Awesome day.
